

The Department of Bioengineering within the Watson School of Engineering and Applied Science and the Department of Biological Sciences within the Harpur School of Arts and Sciences are jointly seeking to fill a full time tenure- track position at the Assistant/ Associate Professor level. The successful candidate is expected to be able to develop a productive, extramurally funded research program complementing a competitive existing biofilm team. A rank appropriate record of teaching, publication in scholarly journals, external funding and/or industrial experience is essential.

Binghamton University offers both undergraduate and graduate degree programs in Bioengineering and Biological Sciences. New faculty will have the opportunity to collaborate with an interdisciplinary research faculty in the Watson School, Harpur School, the Decker School of Nursing as well as the Upstate Medical Center, Memorial Sloan-Kettering Cancer Center, and regional industrial research facilities.

Ranked among the top 30 public universities in the nation, Binghamton University is a research-intensive university with approximately 600 faculty, 12,000 undergraduate students and 3,000 graduate students. Binghamton University is located in the Town of Vestal, just west of Binghamton, roughly 180 miles northwest of New York City. Both Cornell University and Syracuse University are in the immediate vicinity.

Persons interested in the above position should apply online. Please submit a detailed resume, statement of teaching philosophy, detailed research plan, copies of selected publications, and a list of four professional references.

Please see department information at <http://biology.binghamton.edu/> and <http://bioeng.binghamton.edu/>. For additional information, contact Dr. David Davies, Search Committee Chair, at (607)777-2006, or e-mail, dgdavies@binghamton.edu.

Qualified women and minority candidates are encouraged to apply. Binghamton University is an Equal Opportunity/Affirmative Action Employer.
